QUOTES

Quotes

Jorge Moisés Pasato Cornejo

«I was not born knowing how to create. I learned by trying, making mistakes, and starting over.»

ON MY LEARNING

I was not born knowing how to create. I learned by trying, making mistakes, and starting over.

My mistakes were my school. My projects are the result of what I never stopped learning.

I do not have all the answers, but I keep the curiosity to keep searching for them.

ON MY IDENTITY

We were not born to be copies. We were born to discover our own identity.

I am Ecuadorian by birth and a citizen of the world by conviction. Today I am here; tomorrow, who knows where life will take me.

The number seven has been with me since I came into this world. I do not know if it is chance or mystery, but it is part of my story.

ON MUSIC AND TECHNOLOGY

It all began with a question: who is behind what we listen to and use? One day I decided to try being on the other side, creating.

Music awakened my curiosity. Technology gave me the tools to turn it into reality.

I do not only seek to create songs or build platforms. I seek to build an identity that has something to pass on.

ON MY PHILOSOPHY OF LIFE

I do not want people to be like me. I want them to discover what they themselves can become.

Money can be the result of what we do, but it does not have to be the reason for everything we create.

Life is a journey whose stations no one fully knows. While mine lasts, I want to keep learning, creating, and sharing.

I do not need to prove I am superior to anyone. I prefer to prove to myself every day that I can still learn something new.

MY MESSAGE TO THE NEW GENERATIONS

Do not let the lack of a degree, of resources, or of experience convince you that you cannot begin. Learn, try, and build your own path.

Every person carries within them a capacity that deserves to be discovered. Sometimes it all begins with a simple question: why not try?

I do not want to leave only finished projects. I want to leave ideas that inspire others to build their own.
